Year of Passing	2023
Percentage	58.2%

Class X

Board Name	CBSE
Medium	English
Year of Passing	2021
Percentage	77.8%

PROJECTS

KINGSTON BANK, April 2025 - May 2025

- I have completed the development of the banking website, including a Login and Registration page, as per the initial requirements. The landing page introduces users to KINGSTON BANK, providing navigation, a home section, about, and contact information. It also features a modal for checking account balance, and a Dynamic date and time display feature. All fields are validated with appropriate error messages to ensure users input correct and complete data.

College Registration Page, June 2024 - September 2025

- I have completed the development of the registration page as per the initial requirements. The page includes the following fields: name, email, phone number, password, and confirm password. All fields are validated with appropriate error messages to ensure users input correct and complete data.

In addition to form validation, I have implemented a responsive layout using HTML, CSS, and JavaScript. The form adapts well across different screen sizes (mobile, tablet, and desktop). The "Submit" button will only be enabled once all required inputs are correctly filled. A confirmation alert is also triggered upon successful submission.
